Report Authors: Darren Sanders, Shelby County Engineering

The impact on children directly or indirectly affected by the effort will be:

Positive

The effort will increase resources, services, or facilities that provide access to or protection of assets children need in order to prosper.

Evaluation

Evaluation of the stated concerns according to how they may affect children and families:

The Town of Collierville and TDOT are cost-sharing road improvements to East Shelby Drive and Byhalia Road. Because a portion of the road construction (approximately 1,100 linear feet) will take place in Unincorporated Shelby County, the County has been asked to sign onto an intergovernmental agreement.

Evaluation of the significance of the effort's concerns according to how important they may or may not be to children and families:

All funding responsibilities and construction administration efforts are the responsibility of the Town of Collierville and TDOT.

Evaluation of the stated goals according to how they may measurably improve or worsen the conditions affecting children and families:

The County's approval of this intergovernmental agreement permits TDOT and the Town of Collierville to perform work in Unincorporated Shelby County.

Evaluation of the action steps according to how they may create intended or unintended consequences affecting the well-being of children and families:

Enter into an intergovernmental agreement with TDOT and the Town of Collierville.

Evaluation of the effort according to the benefits and risks it poses for children and families:

This project will improve the Town of Collierville's roadway network.

Research

Domains of child well-being potentially affected by the effort:

Safety

Conditions surrounding children and families within the domains identified:

Improved roadway network.

Consequences the effort may pose for children and families:

Safer roads for travel.

Resources that may further inform or enable the effort:
